## EDUCATION

---

- **University of Maryland, Baltimore County** Baltimore, MD  
*Master of Science in Information Systems; GPA: 3.25* *August. 2018 – May, 20*
- **SRM University** Chennai, India  
*Bachelor of Technology in Electronics and Communication Engineering; GPA: 3.7* *Aug. 2014 – May. 2018*

## EXPERIENCE

---

- **University of Maryland** Baltimore County, MD  
*Front Desk Technology Assistant, ASC(Academic Success Center)* *Aug 2019 - Present*
  - Worked in Javascript, Wordpress and php technologies with the Technology Team to manage ASC website and debug issues. Further, worked with the ASC staff in implementation of new modules for the ASC website
  - Assisted the Director of ASC in innovation meetings. Served as Point Of Contact for the Front-desk staff and Tutors using the website at the ASC center for resolving technical glitches
- **Polmon Inst PVT.LTD** Hyderabad, Telangana  
*Software Developer Intern* *Dec 2017- April 2018*
  - As a team of 3 interns worked with the senior developers of the organisation to develop and design a full stack web application useful for the organisation and its corporate clients
  - Collaborated with designers to create clean and responsive interfaces using HTML, CSS, Bootstrap and SemanticUI. Individually maintained and handled MongoDB databases by performing discrete tasks (CRUD)
  - Worked on Polmon Cart, a unique web application that is used by the clients and managed by the organisation. It is developed using Javascript in Front end and nodeJS, expressJS in back end. It offers better indexing of products provided by Polmon and ensures quick insert and retrieval operations of the products which makes differentiation facile for both the clients and organization
- **Nitya Technologies Limited** Hyderabad, Telangana  
*Software Developer Intern* *May 2017 - July 2017*
  - Worked as a team of 2 interns to design and develop dynamic websites for the clients by implementing Javascript modules. Explicitly managed routes that are used to redirect and render web pages using NodeJS and ExpressJS
  - Used RESTful routing parameters to implement the routes accordingly and managed MongoDB databases. Coordinated with senior developers for development tasks and individually initiated maintenance of optimal workflow
  - Worked on a full stack Website development project which involved understanding user-interaction modules. Individually created responsive UI design for the site. Assisted in deployments through Heroku a cloud platform for deployment

## ACADEMIC PROJECTS

---

- **EZ-Toll Plaza Database Management Systems**
  - This is a Database project in which ER-models were designed and database is developed which is useful for toll management to keep track of the user's vehicle data and route path at toll plaza. Used PL/SQL, stored procedures, functions, triggers, cursors for developing features in the system.
  - Database: SQL Environment: SQL developer tool, Oracle Live

## PROGRAMMING SKILLS

---

- **Programming Languages:** Proficient in: Javascript, PHP
- **Web Technologies:** Html, Css, Bootstrap, Semantic UI, ES6, Jquery, Wordpress, ExpressJS, NodeJS, ReactJS, Paper.js, Howler.js, REST
- **Database Technologies:** SQL, MongoDB
- **Tools:** Git, GitHub, Goorm, Webstorm, Visual Studio Code, IntelliJ, PostMan
- **Operating Systems:** Windows, Mac OS
- **Deployment Platforms:** Heroku

## CERTIFICATIONS

---

- **Udemy:**The Web Developer Bootcamp
- **Udemy:**Become a Wordpress Developer:Unlocking Power with Code
